

## BUSINESS PROCESS **SUPPORT** WITH **PLUS WORKFLOW** IN **PODRAVKA**

PODRAVKA, ONE OF THE LARGEST COMPANIES IN THE FOOD INDUSTRY IN MID-EASTERN EUROPE, HAS BEEN USED THE PLUS WORKFLOW SYSTEM FOR MANY YEARS. THE IMPLEMENTED SYSTEM SUPPORTS AND OPTIMIZES BUSINESS PROCESSES PERFORMED IN THE COMPANY.

PODRAVKA'S PRODUCTS ARE AVAILABLE IN ALL CONTINENTS, IN OVER 40 COUNTRIES. THE COMPANY IS ACTIVE IN TWO BUSINESS SEGMENTS, FOOD AND MEDICINE, AND THE MOST RECOGNIZABLE BRANDS OF PODRAVKA IN POLAND ARE VEGETA, PODRAVKA, WARZYWKO.

# APPLIED BUSINESS AND TECHNICAL SOLUTIONS

The Plus Workflow implementation project included the reflection of business processes in an IT environment. The solution delivered is aimed at supporting the electronic flow of invoices in the company. Document scanning takes place in one location in Warsaw. Additionally, the system has been integrated with external data sources used in the processes. During the system installation, the most modern solutions from business process management and IT technologies have been employed, e.g. mobile and remote access, barcode and mobile interfaces operation.

Nowadays, Podravka has decided to extend the platform's license and update the system to 3.1. version. The scope of the project included launching a tool supporting the registration of commercial invoices. A scanning station has been equipped with a new document scanner Fujitsu, and QuickScan application. Moreover, the implementation has been conducted in accordance with the original "SPRINT" methodology which, in comparison with cascade methodology, enables considerable shortening of project realization and ongoing designing of processes and electronic forms of the Plus Workflow system.

*We are glad that our long-time client has trusted us once again and we can still work together on the development of the Plus Workflow platform. The deployment of the 3.1 version of the system enables an increase in the efficiency and flexibility of business processes performed in the company.* – Marek Adamczyk, Suncode's Executive Director.

Even though Podravka gained the trust of its clients, it does not rest on its laurels and constantly strengthens its position on the Polish market. The company, by optimizing the realized business processes, tries to enhance the life quality of its clients and employees.

*The Plus Workflow system works perfectly in our company, and as a result, we decided to expand the license in order to further develop the platform. Thanks to the solution proposed by Suncode consultants we may work with an intuitive and easy platform, facilitating the work of over 50 employees.*

Sylwia Filipiska, Podravka Poland's Financial Director
